

Power To Change

WHO WE ARE?

PASH GLOBAL is one of the leading players in the renewable and clean fuels energy sector.

PASH is a London headquartered company established in 2012 to develop, finance, build, operate and maintain power assets globally. PASH is backed by Trafigura and is looking to make significant investment in the sector over the next 5 years.

By embracing the latest innovations and technologies, we aim to produce clean energy in an effective and efficient way with the emphasis on reducing environmental impact and minimizing the cost of electricity.

PASH has a highly experienced management and technical team with extensive development and execution expertise in over £100bn of energy and infrastructure transactions on every continent.

WHAT WE DO?

Our offering includes delivering small and large-scale projects based on:

- Renewables such as Solar PV, Wind Energy, Biomass, Geothermal and Hydro.
- Solar Diesel Hybrids.
- Battery Storage Systems.
- Retrofitting or converting existing power plants.

OUR BUSINESS MODEL

Develop

In-house project development from inception to operation guarantees lowest possible cost. Technical and commercial team led by experienced professionals ensures projects meet international standards and investment hurdle rates.

Finance

PASH provides 100% of capital expenditure in relation to the power project with no upfront cost to the offtaker of the power.

The offtaker only pays for the electricity produced by the power plant. This is typically backed by a strong customer balance sheet and payment security instruments.

Build

PASH employs the highest standards during the construction phase leveraging its experienced construction managers. PASH also has strong partnerships with Original Equipment Manufacturers (OEM) for successful delivery of projects.

Operate & Maintain

PASH delivers efficient, safe and reliable Operation & Maintenance (O&M) to international best practices. Our O&M team can provide a full suite of O&M services

Including:
Operations – Administrative and Monitoring – Maintenance – Corrective and Preventive Solutions.

WHAT WE OFFER?

PASH produces bespoke power solutions for commercial and industrial customers (C&I) and governments with ability to finance 100% of the project investment. PASH seeks to sign long term Power Purchase Agreements or Lease Agreements with customers depending on their power needs.

Power To Change

KEY BENEFITS FOR CUSTOMERS INCLUDE:

- Providing security of power supply.
- Reducing operating costs.
- Improving energy efficiency and productivity.
- Minimising risks of exposure to fluctuating energy prices.
- Assuring satisfactory handling of environmental and social concerns relevant to consumers, local communities, governments.
- Providing access to high-quality power infrastructure and latest technology.
- Enabling customer focus on core business competencies such as mining, food processing, etc.
- Providing an improved and effective business environment.

PROJECT EXAMPLE: KITA MALI

Partners	PASH, AKUO
Installed power	50MW
Location	Kita, Mali
Status	Connected Q1 2020
Technology	Ground mounted PV
Avoided CO2 emissions/year	51, 744 MT
Power supply per year	Equivalent to 91 702 households
Contract type	28 year PPA
Team onsite	<ul style="list-style-type: none"> • Up to 400 people during construction • 7 persons for asset management and operations
